## About us

The Downtown ophthalmologists and retina specialists at Vitreous Retina Macula Consultants of New York are internationally known leaders in diagnosing and treating retinal diseases. The VRMNY retina doctors in the Lower Manhattan are world-recognized retina experts in difficult-to-diagnose and rare conditions. They offer the latest treatments for retinal diseases, focusing on treating macular degeneration, diabetic retinopathy, and retinal tears and detachments. This exceptional and unique expertise, joined with their attentive, empathetic concern and careful approach means that even expert Manhattan ophthalmologists turn to Downtown Manhattan retina doctors first when they or their families need care.

VRMNY retina doctors have trained and taught at some of the world's finest and most respected academic institutions. The physicians who comprise the best retina specialists in New York are experts in vitrectomy surgery and hold academic appointments at Lenox Hill Hospital, New York University, and the New York Eye and Ear Infirmary.

Specializing in diabetic retinopathy surgery and macular degeneration surgery, our ophthalmologists in Downtown focus on treating a wide range of medical and surgical retinal conditions, prioritizing the management of these leading causes of retinal vision loss.

With state-of-the-art New York ophthalmology center in Downtown , Manhattan, VRMNY is the largest retina vitreous center in the New York Metropolitan area.

Our Downtown, New York ophthalmologists and eye doctors publish more in the foremost peer-reviewed journals than any other private or academic group in the United States. The practice devotes its time and resources to research and developing new diagnostic and therapeutic strategies. Many current concepts in retinal disease and treatment recognized worldwide were invented at VRMNY.

The attention, empathetic concern, and careful approach of the eye care specialists and their support team of retina surgeons explain the success of VRMNY. The over 60 member staff provides a full range of educational, medical, and surgical services. With an emphasis on patient education, the staff delivers compassionate and empowering care.

For more information about the Vitreous Retina Macula Consultants of New York, our doctors, or to schedule a consultation with Dr. Lawrence A. Yannuzzi, MD, please contact our ophthalmology practice by number: (212) 234-3367.
